Addressing Underrepresentation Through Data Augmentation
Frequently Asked Questions (FAQs)

1. Does this topic require a focus on socio-ethno-political biases?
Answer: Yes. Other biases (e.g., statistical biases) are within scope, but proposers should make an argument as to how those manifest in socio-ethno-polito-economic-etc. biases.
2. Will proposals that focus on the general problem of augmenting biased datasets be considered responsive?
Answer: Yes.
3. Does this topic require a focus on a particular modality? Will demonstrations of modality-agnostic frameworks be considered responsive, provided they are demonstrated on a defense-related task?
Answer: No particular modality is required
